Dear Jenine Camilleri,

In response to the Violation Notice sent to Rapid-Packaging Corporation on July 12, 2023, please accept the following statements and attachments to demonstrate compliance to Rule 201:

I have received hard copies and subsequently downloaded additional copies of the permit to install exemption form, as well as the VOC emission calculation sheet for lithographic printers. I have estimated our annual VOC potential to emit and it appears that we are far below the threshold for a permit to install exemption.

The responsibility for record keeping has been given to me and I commit to keeping those records up to date on a monthly basis as required.

Attached is the VOC emission calculation sheet and the permit to install exemption record for the month of July 2023.

Thank you.

Sincerely,

A handwritten signature in black ink that reads "Russell Spees III". The signature is fluid and cursive, with a small flourish at the end.
