STAFF: David Morgan	COMPLIANCE STATUS: Non Compliance	SOURCE CLASS: SM OPT OUT
SUBJECT:		
RESOLVED COMPLAINTS:		

On January 30, 2020 and July 28, 2020, Air Quality Division staff Dave Morgan conducted an on-site inspection of Caribbean Pool and Fiberglass located at 300 Lincoln Lake Avenue in Lowell. The purpose was to determine the facility's compliance with state and federal air pollution regulations as well as Permit to Install (PTI) No. 197-14. During each on-site visit, there were no personnel present or any activity occurring. It is noted that the telephone number listed for the business had also been disconnected.

Based on this information it appears that Caribbean Pool and Fiberglass is closed. However until further confirmation, the facility will be marked as temporarily closed in MACES and their permit will not be voided at this time. AQD staff sent a message to the email address on file with AQD seeking verification of the facility's operating status. An undeliverable message was received for the email address.

In addition, a Violation Notice was sent on June 11, 2020 for non-submittal of emission information to MAERS. Due to the company apparently being shutdown, it is recommended that AQD not pursue additional enforcement action with respect to MAERS at this time. However, the facility will remain in non-compliance until it is determined that the facility is permanently closed.
