CITY: TRAVERSE CITY		COUNTY: GRAND TRAVERSE
CONTACT:		ACTIVITY DATE: 03/04/2019
STAFF: Caryn Owens	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Scheduled Inspection and Records Review		
RESOLVED COMPLAINTS:		

On Monday, March 4, 2019, Caryn Owens of the Department of Environmental Quality (DEQ) – Air Quality Division (AQD) conducted a scheduled field inspection of W.T. Grant (P0611) located at 3850 Franke Road in Traverse City, Grand Traverse County, Michigan. More specifically, the facility was formerly W.T. Grant and is now Meijer which who took ownership of the Property in 1977. The purpose of this inspection was to determine compliance with Permit to Install (PTI) 43-72I or if the PTI can be voided.

Source Description

Upon arrival at the facility, I met with Manager Jim Kowalski, and he took me to the heating and cooling areas of the building. All of the heating and cooling is operated in the southern portion of the building. Meijer expanded in 1998, completely renovating the building. All of the former heating and cooling systems from W.T. Grant were removed at this time. Additionally, Mr. Kowalski stated there is no incinerator at the site. I checked out the exterior of the building, and no stacks were observed that resemble 40-foot stack as indicated in the PTI.

Based on the information reviewed, and the field inspection, it appears the incinerator has been removed and no longer in use at this location. AQD will request to have PTI 43-72I voided, and no further action is necessary at this time.
