SUBJECT: Boilers and emergency generator		
RESOLVED COMPLAINTS:		

On 2/5/16 PTI #206-15 was issued to the Michigan Department of Corrections for boilers and emergency engines located at the Chippewa Correctional Complex in Kincheloe.

On 12/7/2016 I conducted an unannounced inspection of this facility. The primary contact, Mr. Rick Burd was on vacation so I was directed to speak with Mr. Brian Stephenson. I met Mr. Stephenson at the boiler house (steam plant). Upon discussions with Mr. Stephenson it was determined he would not be able to answer many of the questions I had. He stated Mr. Burd was on vacation for the week. It was decided to gather complete answers to the operation, maintenance, and record keeping of the plant I would wait and have a discussion with Mr. Burd when he returns.

A complete inspection will be scheduled with Mr. Burd (cell 906 298-2412) in the near future.
