SUBJECT: Unannounced Self-initiated Inspection		
RESOLVED COMPLAINTS:		

On 8/26/2015, I conducted a level 2 unannounced target inspection at A-1 Stampings, Inc. located at 33381 Kelly Road, Fraser, Michigan 48026. The purpose of the inspection was to determine the facility's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451), and the administrative rules. During the pre-inspection meeting, I initially showed my credential (ID Badge), stated the purpose of my visit, and gave a copy of the pamphlet "Environmental Inspections: Rights and Responsibilities", to Mr. Clark Kirkman, Manager.

Mr. Kirkman informed me that the facility's primary business is metal stamping for various customers. This includes die stamping and automotive parts. During the walk through inspection, I observed a total of 7 stamping equipment of varied sizes. These equipment are exempt from permit to install requirements per AQD Administrative Rule R 336.1285(I)(i). I also observed other cutting, grinding, and machining equipment also exempt from permit to install requirements per AQD Administrative Rule R 336.1285(I)(vi). All equipment process emissions are released indoors. I did not observe any visible emissions inside and outside the facility during inspection.

Overall, I did not find any noncompliance issues during the inspection.
