STAFF: Joel Asher	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Follow up on old PTI.		
RESOLVED COMPLAINTS:		

On 6/18/1974, PTI #222-74 was issued to Quality Construction Services. This PTI was for a baghouse for the sawdust and shavings exhaust from two table saws, a straight line rip saw, a planer, and a four headed moulder planer. On 7/18/1974, the Permit to Operate was issued.

On 12/1/2016, I visited the sight where this facility was permitted to operate. There is no evidence of the facility. A review online does not show anything to indicate the company is still in business. I called the telephone number listed on the PTI, however it is now issued to a residence.

This facility is out of business and no equipment related to this permit can be found. A note will be sent to Ms. Sue Thleen of the Permit Section requesting to void PTI #222-74.

This facility can be removed from the district inspection database.
