Mr. Yazzie,

P0779

On 5/21/18 we received a violation notice from you saying we reported a voc emission limit higher than the voc emission limit in the permit. I tried to fill out the MAERS report on-line and must have done it wrong. When we got our permit to install, we used numbers from someone else's dryer that dries down similar product. I think their dryer is way bigger than ours so the numbers did not add up right. I found it very confusing trying to transfer the information from the papers I had to the MAERS system online.

Here are the hours and pounds we ran this year.....

1/16/18 2 hrs 12,000lbs

1/26/18 2 hrs 12,000lbs

2/15/18 3 hrs 18,000lbs

2/16/18 1 hr 6,000lbs

4/18/18 4 hrs 24,000lbs

4/30/18 4 hrs 24,000lbs

5/1/18 6 hrs 36,000lbs

5/2/18 6 hrs 36,000lbs

I will hang a calendar by the dryer and write down how many hours we ran when we run it.

Thank you,

A handwritten signature in blue ink, appearing to read "Dan Raak".
