SUBJECT: Waste oil collection		
RESOLVED COMPLAINTS:		

This facility was observed on a list of facilities permitted by the DEQ's Office of Waste Management and Radiological Protection, Solid Waste Program to collect waste oil not generated on site.

On 2/15/2017, I visited the site and met with the manager, Mr. Rob Shepard. He stated they do collect waste oil, used antifreeze, and used oil filters from the public. All materials have been collected since the store opened. Materials are picked up by Safety Kleen every month and a half or sooner if the collection receptacles are full.

No oil is burned.

Activities at this facility are not regulated by the DEQ, Air Quality Division.
