AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection

U17170083038648

FACILITY: WALMART		SRN / ID: U171700830
LOCATION: 3673 I 75 BUSINESS SPUR		DISTRICT: Upper Peninsula
CITY: SAULT STE MARIE		COUNTY: CHIPPEWA
CONTACT: PATRICK MCCONNELL , MANAGER		ACTIVITY DATE: 02/15/2017
STAFF: Joel Asher	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Waste oil collection		
RESOLVED COMPLAINTS:		

This facility was observed on a list of facilities permitted by the DEQ's Office of Waste Management and Radiological Protection, Solid Waste Program to collect waste oil not generated on site.

On 2/15/2017, I visited the site and met with the manager, Mr. Patrick McConnell. He stated they do collect waste oil from the public and from their repair work in the automotive shop. Public waste oil is collected in a 250 gallon tank outside that is locked, only staff are allowed to dump the oil in the tank. Oil from the shop is collected in an 800 gallon tank in the shop that is locked. Materials are picked up by Future Environmental every few months or sooner if the collection receptacles are full.

No oil is burned.

Activities at this facility are not regulated by the DEQ, Air Quality Division.
