RE: U412402262

Dear Jeremy Howe

This letter is in response to the inspection on May 6th, 2024, at 273 Market Ave, Grand Rapids.

The material was being removed by hand not by mechanical means and was not made friable. We had water on site and was brought into the abatement area after the inspection and wetted. We have had multiple similar projects with NEA monitoring and have never been close the 8-hour TWA PEL.

Sincerely,

A handwritten signature in blue ink, appearing to be "L Pitsch", written over a horizontal line.

Lewis Pitsch
