**VIOLATION NOTICE**

On January 26, 2017, the Michigan Department of Environmental Quality (MDEQ), Air Quality Division, performed an asbestos NESHAP (National Emission Standard for Hazardous Air Pollutants) complaint investigation at 12350 James Street, Holland, Ottawa County. The purpose of this investigation was to determine compliance with the requirements of Title 40 of the Code of Federal Regulations, Part 61, Subpart M (National Emission Standard for Asbestos), and Rule 942 of Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451).

According to my investigation, Joseph Nelis owns the subject commercial facility and Vanderkolk Excavating performed the demolition activities at this facility. The demolition took place on or about January 25, 2017. The National Emission Standard for Asbestos holds both the owner and operator equally liable for the violations.

During the investigation, staff observed the following: The former commercial property was in the process of being demolished. The liable parties had failed to perform a thorough inspection and provide a 10-working day notice to the administrator prior to any demolition activities.
