Dear Mr. Dunbar and Mr. Munger:

### **VIOLATION NOTICE**

On September 14, 2018, the Department of Environmental Quality (DEQ), Air Quality Division (AQD) performed an asbestos inspection located at 412 South Mitchell Street, Cadillac, Michigan. The purpose of this inspection was to determine compliance with the requirements of Title 40 of the Code of Federal Regulations, Part 61, Subpart M (National Emission Standard for Asbestos), and Rule 942 of Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451).

According to our investigation, Dunbar Excavating was the operator who conducted the demolition activities, and Mr. Robb Munger is the property owner of the addressee mentioned above. The National Emission Standard for Asbestos holds the owner and operator liable for all violations.

During the investigation staff observed/discovered the following:

The subject property at 412 South Mitchell Street was partially demolished with the demolition debris pushed into the basement/crawl space area. There was not a 10-working day Scheduled Demolition notification submitted before the work began. During my inspection, the owner, Mr. Robb Munger told me that an asbestos survey had been done and the asbestos was abated before demolition started.

Mr. Dave Dunbar and Mr. Robb Munger
