

Acid Rain Permit Public Notice Documents

30-DAY PUBLIC COMMENT

Draft Acid Rain applications are included in chronological order, with those comment periods ending sooner at the end of the list, and those most recently listed at the top. The Department of Environment, Great Lakes, and Energy (EGLE) is seeking comment on the following Acid Rain actions:

DTE Trenton Channel – SRN: B2811

EGLE is holding a public comment period from May 23, 2011 until June 22, 2011 on a draft renewal Acid Rain Permit.

45-DAY EPA REVIEW

Individuals who commented on draft Acid Rain Permits during the 30-day public notice period may submit a petition to the United States Environmental Protection Agency (EPA) to object to the permit. Information on how to submit a petition to the EPA is available at the following website: <https://www.epa.gov/title-v-operating-permits/title-v-petitions>. The time period provided to petition the permit to EPA ends 60 days after EPA's 45-day review period ends (i.e., 105 calendar days after the specified start date of the EPA review). See AQD's Rule 214(8) for further information.

Information is included in chronological order, with those comment periods ending sooner at the end of the list, and those most recently listed at the top. The public comment period for initial or renewal ROPs has ended and the EGLE has proposed the following ROPs to the EPA for 45-day review:

CMS Generation – Kalamazoo River Generating Station – SRN: 6731

A proposed renewal Acid Rain Permit (EPA review began October 18, 2021 and ends December 2, 2021).

FINAL TITLE V / ROP PERMITS

Information is included in chronological order, with those comment periods ending sooner at the end of the list, and those most recently listed at the top. The time period provided to petition an initial or renewal ROP to EPA ends 60 days after EPA's 45-day review period ends, (i.e., 105 calendar days after the specified start date of the EPA review). See AQD's Rule 214(8) for further information.

All plans referenced in final ROPs can be obtained from the appropriate [AQD District Office](#).

When an Acid Rain Permit is final, it is incorporated into the associated Renewable Operating Permit (ROP). All ROPs may be found on the AQD website through the sorted lists on the [ROP Source Lists](#) website.

EGLE has recently made final decisions on the following ROP Actions:

Michigan Power Limited Partnership – SRN: N4975

A renewal Acid Rain Permit (EPA review began 09-13-2021 and ended 10-28-2021).

- [Acid Rain Permit](#)

Sumpter Generation Plant – SRN: M4854

A renewal Acid Rain Permit (EPA review began 11-02-2020 and ended 12-17-2020).
