

GRETCHEN WHITMER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF  
ENVIRONMENT, GREAT LAKES, AND ENERGY  
LANSING

LIESL EICHLER CLARK  
DIRECTOR

February 10, 2021

Dear Interested Party:

You are receiving this letter because you have indicated an interest in actions associated with FCA US, LLC (FCA). This letter is to update you on a Permit to Install (PTI) application for FCA Jefferson North Assembly Plant (JNAP), which is located at 2101 Conner Street, Detroit, Michigan.

This application was part of a combined public comment period with PTI Application No. 14-19A for FCA US LLC, Detroit Assembly Complex Mack Plant (Mack). A decision has been made on the Mack application, but a second public comment period is being held for the JNAP application because FCA proposed changes to the application. Changes made to the draft permit are:

1. The addition of updated conditions for four existing emission units;
2. Additional recordkeeping and reporting requirements; and
3. To allow 12 months after installation for the average amount of VOC emissions per job to decrease from the current 4.8 pounds per job (vehicle) to 4.4 pounds per job.

The law requires the Michigan Department of Environment, Great Lakes, and Energy (EGLE) to allow the public to comment on some actions, such as the application for FCA. Public comments are a very important part of making sure the application has been thoroughly reviewed.

More information about the JNAP PTI application, such as the "Proposed Project Summary," the "Proposed Permit Conditions," and the "Technical Fact Sheet," containing the regulatory analysis behind the writing of the proposed permit conditions, can be found by going to [https://www.deq.state.mi.us/aps/downloads/permits/PubNotice/NSR\\_PTIs\\_Open\\_for\\_Comment.pdf](https://www.deq.state.mi.us/aps/downloads/permits/PubNotice/NSR_PTIs_Open_for_Comment.pdf) or you may contact me for printed copies.

You may mail comments by March 22, 2021, to Ms. Annette Switzer, Permit Section Manager, EGLE, Air Quality Division, P.O. Box 30260, Lansing, Michigan, 48909-7760. Comments may also be submitted on the webpage: [https://www.deq.state.mi.us/aps/downloads/permits/PubNotice/NSR\\_PTIs\\_Open\\_for\\_Comment.pdf](https://www.deq.state.mi.us/aps/downloads/permits/PubNotice/NSR_PTIs_Open_for_Comment.pdf) (click on "Submit Comment" under the FCA US, LLC, PTI Application No. 33-20 listing). In addition, formal comments are being accepted over the phone by calling 517-284-0900.

A virtual Informational Session and public hearing will be held on March 16, 2021, starting at 6:00 p.m. Please visit [https://www.deq.state.mi.us/aps/downloads/permits/PubNotice/NSR\\_PTIs\\_Open\\_for\\_Comment.pdf](https://www.deq.state.mi.us/aps/downloads/permits/PubNotice/NSR_PTIs_Open_for_Comment.pdf) for more information and the link to the virtual informational session and public hearing.

During the virtual informational session, AQD staff will provide information about the proposed project and will be available to answer questions. The public can submit comments for the record during the virtual hearing, as well. The sole purpose of the public hearing will be to take formal testimony on the record.

Interested Party  
Page 2  
February 10, 2021

After resolving any issues raised during the public comment period and the hearing, a final decision will be made on the PTI application.

All comments received during this process will be reviewed and considered in the final decision and a written response and a copy of the decision made about the proposed permit will be provided to you.

If you have any questions, please feel free to contact me.

Sincerely,

David Thompson, Senior Environmental Engineer  
Permit Section, Air Quality Division  
517-582-5095
