Kevin D'Arco, EHS Manager  
AmeriTi Manufacturing, LLC  
19300 Filer Avenue  
Detroit, Michigan 48234

Dear Kevin D'Arco:

This letter is in reference to your Permit to Install (PTI) application, identified as No. APP-2022-0124, for an increase in allowed throughput for the existing powder manufacturing process and replacement of certain control devices located at 19300 Filer Avenue in Detroit, Michigan (State Registration Number A8892).

The public comment period ended on August 7, 2023, and a virtual public hearing was held on July 27, 2023. Comments were received during the comment period and at the virtual public hearing. After careful consideration of the issues and pursuant to the delegation of authority from the Director of the Michigan Department of Environment, Great Lakes, and Energy (EGLE), I have approved PTI No. 549-97D with no changes.

The Air Quality Division (AQD) has prepared the enclosed Response to Comments (RTC) Document, which provides our responses to comments received during the public comment period and at the virtual public hearing. The RTC Document and the Permit Terms and Conditions are also available at [Michigan.gov/EGLEAirPublicNotice](https://www.michigan.gov/EGLEAirPublicNotice), choose "[Final Decisions.](#)"

This approval is based upon and subject to compliance with all administrative rules of EGLE and conditions stipulated in the enclosed supplement. Please review these conditions thoroughly so that you may take the actions necessary to ensure compliance with all of these conditions.

Also, PTI No. 549-97C has been voided because the equipment is now covered by PTI No. 549-97D.

To help us improve the service we provide our customers, we encourage you to complete a *Permit to Install Customer Service Survey* on the following Web page:
