STATE OF MICHIGAN  
DEPARTMENT OF

LANSING

PHILLIP D. ROOS  
DIRECTOR

September 14, 2023

Dear Interested Party:

Thank you for your interest regarding the Permit to Install (PTI) Application No. APP-2022-0124 submitted by AmeriTi Manufacturing, LLC, to the Michigan Department of Environment, Great Lakes, and Energy (EGLE), requesting an increase in allowed throughput for their existing powder manufacturing process and replacement of certain control devices located at 19300 Filer Avenue in Detroit, Michigan.

Pursuant to state and federal requirements, EGLE held a public comment period that ended on August 7, 2023, with a virtual public hearing on July 27, 2023, on its proposed conditional approval of the permit. The Air Quality Division (AQD) received six sets of comments throughout the public comment period, including at the virtual public hearing.

After careful consideration of the issues and pursuant to the delegation of authority from the Director of EGLE, I have approved PTI No. 549-97D with no changes to the proposed permit.

The Response to Comments (RTC) Document provides our responses to comments received during the public comment period and at the virtual public hearing. The RTC Document and the Permit Terms and Conditions are available at: [Michigan.gov/EGLEAirPublicNotice](https://Michigan.gov/EGLEAirPublicNotice), choose "Final Decisions."

Thank you for your input regarding our review of this permit application. If you have any questions, please contact Marina Ostaszewski, Permit Section, AQD, at 517-648-7995; [OstaszewskiM1@Michigan.gov](mailto:OstaszewskiM1@Michigan.gov); or EGLE, P.O. Box 30260, Lansing, Michigan 48909-7760; or you may contact me.

Sincerely,

Annette Switzer, Director  
Air Quality Division
