DIRECTOR

July 27, 2023

Thomas Krysiak, EHS Manager
Indeck Niles, LLC
2200 Progressive Drive
Niles, Michigan 49120

Dear Thomas Krysiak:

This letter is in reference to your Permit to Install (PTI) application, identified as No. APP-2022-0265, State Registration Number N6921. The application was received on October 18, 2022, for changes to the existing permit for the natural gas-fired combined-cycle power plant located at 2200 Progressive Drive, in Niles, Michigan. The changes are to reflect equipment actually installed and to lower current permitted emission limits.

Review of your PTI application is complete. We have announced a public comment period as required by state and federal regulations, on the intent of the Michigan Department of Environment, Great Lakes, and Energy (EGLE) to approve the proposed permit. The public comment period will begin on July 27, 2023, and will end on September 11, 2023. An informational session and public hearing have been scheduled on September 6, 2023; however, they will be held only if requested by August 30, 2023. You may submit comments during the comment period and are encouraged to appear at the informational session and public hearing, if held, on behalf of your PTI application.

After resolving any issues raised during the public comment period and/or the hearing, a final decision will be made on your PTI application.

By law, construction of the proposed process should not begin until you receive an approved PTI. *This letter is not an approved permit to install* and only references a proposed action on your PTI application.

Enclosed are copies of the proposed permit conditions, "Notice of Air Pollution Comment Period," "Proposed Project Summary," and the "Technical Fact Sheet" regarding our analysis of your proposed project.

If you have any questions, please feel free to contact me. You may call me on August 31, 2023, to determine if a hearing was requested.

Sincerely,

Nicholas Carlson, Environmental Engineer
