

NOTICE of AIR PERMIT COMMENT PERIOD

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) is holding a public comment period and a virtual public hearing, if requested, to allow the public the opportunity to comment on the proposed conditional approval of an air permit.

There is a public comment period from July 27, until September 11, 2023, and a virtual public hearing, if requested, on September 6, 2023 for:

Company: Indeck Niles, LLC at 2200 Progressive Drive, Niles, Michigan

What company wants to do: Application No. APP-2022-0265 is a request to change existing permit conditions to reflect equipment actually installed as well as to lower current permitted emission limits.

The public comment period and virtual public hearing, if requested, are to allow all interested parties the opportunity to comment on the proposed conditional approval of a Permit to Install (PTI). It has been preliminarily determined that the permit modifications will not violate any of EGLE's rules nor the national ambient air quality Standards.

Technical information: This proposal is subject to the state and federal Prevention of Significant Deterioration (PSD) rules and regulations for a major source based on the emissions of nitrogen oxides, carbon monoxide, particulate matter, particulate matter less than or equal to 10 microns in diameter, particulate matter less than or equal to 2.5 microns in diameter, sulfur dioxide, volatile organic compounds, sulfuric acid mist, and greenhouse gases.
