ACTING DIRECTOR

March 14, 2023

Philip Oliver, President  
Industrial Metal Coating  
6070 Eighteen Mile Road  
Sterling Heights, Michigan 48314

Dear Phillip Oliver:

This letter is in reference to your Permit to Install (PTI) application, identified as No. APP-2022-0276, State Registration Number N5145. The application was received on October 28, 2022, for secondary chamber afterburners on two burn-off ovens, to update the parameters for the e-coat oven stacks, and for a nuisance minimization plan for the facility located at 6070 Eighteen Mile Road in Sterling Heights, Michigan.

Review of your PTI application is complete. We have announced a public comment period, as required by state and federal regulations, on the intent of the Michigan Department of Environment, Great Lakes, and Energy (EGLE) to approve the proposed permit. The public comment period will begin on March 14, 2023 and will end on April 28, 2023. An informational session and public hearing have been scheduled on April 13, 2023; however, they will be held only if requested by April 6, 2023. You may submit comments during the comment period and are encouraged to appear at the informational session and public hearing, if held, on behalf of your PTI application.

After resolving any issues raised during the public comment period and/or the hearing, a final decision will be made on your PTI application.

Enclosed are copies of the proposed permit conditions, "Notice of Air Pollution Comment Period and Public Hearing," "Proposed Project Summary," and the "Technical Fact Sheet" regarding our analysis of your proposed project.

If you have any questions, please feel free to contact me. You may call me on April 7, 2023, to determine if a hearing was requested.

Sincerely,

Jacob Young, Environmental Engineer  
General Manufacturing/Chemical Process Unit  
Permit Section, Air Quality Division  
517-582-5218
