

GRETCHEN WHITMER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF
ENVIRONMENT, GREAT LAKES, AND ENERGY
LANSING

DANIEL EICHINGER
ACTING DIRECTOR

March 14, 2023

Dear Interested Party:

We are sending you this information because you may have an interest in air quality related activities associated with Industrial Metal Coating. The company has submitted an air permit application (No. APP-2022-0276) for secondary chamber afterburners on two burn-off ovens, to update the parameters for the e-coat oven stacks, and for a nuisance minimization plan for odors. The facility is located at 6070 Eighteen Mile Road in Sterling Heights, Michigan.

The law requires the Michigan Department of Environment, Great Lakes, and Energy (EGLE) to open some actions for the public to comment on, such as the changes Industrial Metal Coating is requesting. Public comments are a very important part of making sure the application has been thoroughly reviewed.

Information about the air permit application, such as the summary of the proposed project, the proposed permit conditions, and the fact sheet containing the regulatory analysis of the proposed permit conditions are available to review. This information, as well as what we can consider in our decision on the application, may be found at Michigan.gov/EGLEAirPublicNotice and select "[Applications Open for Comment](#)", or you may contact me for printed copies.

If you decide to comment on this draft air permit, you may submit comments in a variety of ways by April 28, 2023:

E-mail your comment to EGLE-AQD-PTIPublicComments@Michigan.gov

Mail your comment to Michigan Department of the Environment, Great Lakes, and Energy (EGLE), Air Quality Division, Permit Section, P.O. Box 30260, Lansing, Michigan 48909-7760.

Leave us a voicemail comment by calling 517-284-0900.

At the public hearing, if held.

Please note, for this public comment period, a public hearing must be requested.

Interested Party

March 14, 2023

You may request a public hearing be held, in writing, to the email or address above by **April 6, 2023**. If a public hearing is requested, a virtual informational session and public hearing will be held on **April 13, 2023**.

The virtual information session will begin at 6:00 p.m., with a brief presentation about the proposed project and the draft air permit and will include an opportunity for the public to ask questions of EGLE staff. The public hearing will be immediately following to take official comments on the record. You may contact me at 517-582-5218 on April 7, 2023, to determine if a hearing was requested and will be held.

The AQD will review and consider all comments received during the comment period before making the final decision, and a written response and a copy of the decision made about the proposed permit will be provided to you.

If you have any questions, please feel free to contact me.

Sincerely,

Jacob Young, Environmental Engineer
General Manufacturing/Chemical Process Unit
Permit Section, Air Quality Division
