PHILLIP D. ROOS
DIRECTOR

February 21, 2024

Reza Eizadkhah, Site Operations Manager
Carmeuse Lime & Stone
25 Marion Avenue
River Rouge, Michigan 48218

Dear Reza Eizadkhah:

This letter is in reference to your Permit to Install (PTI) application, identified as No. APP-2023-0028, State Registration Number B2169. The application was received on January 24, 2023, for the proposed use of coke oven gas as an additional fuel in the existing lime kilns located at 25 Marion Avenue, in River Rouge, Michigan.

Review of your PTI application is complete. We have announced a public comment period as required by state and federal regulations, on the intent of the Michigan Department of Environment, Great Lakes, and Energy (EGLE) to approve the proposed permit. The public comment period will begin on February 21, 2024, and will end on April 8, 2024.

EGLE will be hosting an informational session, prior to the hearing on March 26, 2024, starting at 6:00 p.m. at the Kemeny Center, 2260 South Fort Street, Detroit, Michigan. EGLE staff will provide a summary of the proposed permit and the technical review completed with an opportunity to answer questions from the public. The hearing will begin immediately following.

You may submit comments during the comment period and are encouraged to appear at the informational session and public hearing on behalf of your PTI application.

After resolving any issues raised during the public comment period and/or the hearing, a final decision will be made on your PTI application.

By law, construction of the proposed process should not begin until you receive an approved PTI. *This letter is not an approved permit to install* and only references a proposed action on your PTI application.

Enclosed are copies of the proposed permit conditions, "Notice of Air Pollution Comment Period and Public Hearing," "Proposed Project Summary," and the "Technical Fact Sheet" regarding our analysis of your proposed project.

Reza Eizadkhah, Site Operations Manager
