LANSING

PHILLIP D. ROOS
DIRECTOR

March 27, 2024

Lori L. Myott, Manager, Environmental Services and Reliability Compliance
Lansing Board of Water & Light
1232 Haco Drive
Lansing, MI 48912

Dear Lori Myott:

This letter is in reference to your Permit to Install (PTI) application, identified as No. APP-2023-0209, State Registration Number B4001. The application was received on August, 11, 2023, for a new natural gas-fired reciprocating internal combustion engine plant consisting of six natural gas-fired engines proposed to be located at 3725 South Canal Road in Lansing, Michigan.

Review of your PTI application is complete. We have announced a public comment period as required by state and federal regulations, on the intent of the Michigan Department of Environment, Great Lakes, and Energy (EGLE) to approve the proposed permit. The public comment period will begin on March 27, 2024, and will end on May 14, 2024. A virtual informational session and public hearing have been scheduled on May 1, 2024; however, they will be held only if requested by April 24, 2024. You may submit comments during the comment period and are encouraged to appear at the informational session and public hearing, if held, on behalf of your PTI application.

After resolving any issues raised during the public comment period and/or the hearing, a final decision will be made on your PTI application.

By law, construction of the proposed process should not begin until you receive an approved PTI. *This letter is not an approved permit to install* and only references a proposed action on your PTI application.

Enclosed are copies of the proposed permit conditions, "Notice of Air Pollution Comment Period and Public Hearing," "Proposed Project Summary," and the "Technical Fact Sheet" regarding our analysis of your proposed project.

If you have any questions, please feel free to contact me. You may call me after April 24, 2024, to determine if a hearing was requested.

Sincerely,

Thomas Hercula, Environmental Engineer
Permit Section
Air Quality Division
