DEPARTMENT OF
ENVIRONMENT, GREAT LAKES, AND ENERGY
LANSING

PHILLIP D. ROOS
DIRECTOR

January 30, 2024

Philip Oliver, President
Industrial Metal Coating
6070 Eighteen Mile Road
Sterling Heights, MI 48314

Dear Philip Oliver:

This letter is in reference to your Permit to Install (PTI) application, identified as No. APP-2023-0259, State Registration Number N5145. The application was received on October 6, 2023, to install secondary chamber afterburners on two existing burn-off ovens located at 6070 Eighteen Mile Road in Sterling Heights, Michigan.

Review of your PTI application is complete. We have announced a public comment period as required by state and federal regulations, on the intent of the Michigan Department of Environment, Great Lakes, and Energy (EGLE) to approve the proposed permit. The public comment period will begin on January 30, 2024 and will end on March 13, 2024. A virtual informational session and public hearing have been scheduled on February 29, 2024; however, they will be held only if requested by February 21, 2024. You may submit comments during the comment period and are encouraged to listen in to the informational session and public hearing, if held, on behalf of your PTI application.

After resolving any issues raised during the public comment period, a final decision will be made on your PTI application.

By law, construction of the proposed process should not begin until you receive an approved PTI. *This letter is not an approved permit to install* and only references a proposed action on your PTI application.

Enclosed are copies of the proposed permit conditions, "Notice of Air Permit Comment Period," "Proposed Project Summary," and the "Technical Fact Sheet" regarding our analysis of your proposed project.

If you have any questions, please feel free to contact me. You may call me after February 21, 2024, to determine if a hearing was requested.

Sincerely,

Jacob Young, Environmental Engineer
Permit Section
Air Quality Division
