

NOTICE of AIR PERMIT COMMENT PERIOD

The Michigan Department of Environment, Great Lakes, and Energy (EGLE) is holding a public comment period and a virtual public hearing, if requested, to allow the public the opportunity to comment on the proposed conditional approval of an air permit.

There is a public comment period from January 30, 2024, until March 13, 2024, with a virtual public hearing, if requested, on February 29, 2024 for:

Company: Industrial Metal Coating located at 6070 Eighteen Mile Road, Sterling Heights, Michigan

What the company wants to do: Application No. APP-2023-0259 is for the proposed modification of two existing burn-off ovens to install and operate additional pollution controls, called secondary chamber afterburners.

The public comment period is to allow all interested parties the opportunity to comment on the proposed conditional approval of a Permit to Install (PTI).

It has been preliminarily determined that the permit modifications will not violate any of EGLE's rules nor the National Ambient Air Quality Standards.
