

R 336.1202 Waivers of approval. (1/18/80)

Rule 202. If the requirement for approval of a permit to install prior to construction will create an undue hardship to the applicant, the applicant may request a waiver to proceed with construction from the commission. The application for a waiver shall be in writing, shall explain the circumstances that will cause the undue hardship, and shall be signed by the owner or his authorized agent. The application shall be acted upon by the commission within 30 days. If a waiver is granted, the applicant shall submit pertinent plans and specifications for approval as soon as is reasonably practical. The applicant, after a waiver is granted, shall proceed with the construction at his own risk; however, no operation shall be authorized until the application for a permit to install has been approved by the commission. After construction, modification, relocation, or installation has begun or been completed, if the plans, specifications, and completed installations do not meet commission approval, the application for a permit to install shall be denied, unless the alterations required to effect approval are made within a reasonable time as specified by the commission.
