**List of Partial Compliance Evaluations :**

Activity Date	Activity Type	Compliance Status	Comments
08/13/2018	Scheduled Inspection	Compliance	FY18 Targeted Inspection
06/13/2018	ROP Semi 1 Cert	Compliance	2017 Semi-Annual 1 ROP Certification. No deviations reported. Report was postmarked 9/14/17.
04/27/2018	MAERS	Compliance	The completeness check did not identify any errors. The 2017 MAERS emissions were calculated using AP-42. Attached to the online submittal were facility calculations and emission factor supporting information. Based on review of AP-42 calculations, it appears the facility is accurately estimating emissions. During 2017 the material throughput for the facility decreased and emissions of PM 10 reflected the change in throughput with a similar decrease.
