RESOLVED COMPLAINTS:		

On 9/9/16 I conducted an unannounced inspection of this facility. I met with the owner Mr. Mark Ruppe.

The facility still owns their aggregate crusher. Mr. Ruppe stated it has not operated since our last meeting on 7/21/15. It is still for sale.

The unit continues to be located at their shop and is set up. Mr. Ruppe stated they have not pursued getting a PTI for the unit as they have not operated it and no business is lined up. We discussed the issue and I explained if the unit is operated for any production a PTI is needed. Mr. Ruppe stated he understood.
