FACILITY: MINISTRELLI CONSTRUCTION CO		SRN / ID: B5766
LOCATION: , NOVI		DISTRICT: Southeast Michigan
CITY: NOVI		COUNTY: OAKLAND
CONTACT:		ACTIVITY DATE: 11/07/2019
STAFF: Adam Bognar	COMPLIANCE STATUS: Compliance	SOURCE CLASS: Minor
SUBJECT: Scheduled Inspection		
RESOLVED COMPLAINTS:		

On Thursday, November 7, 2019, Michigan Department of Environment, Great Lakes, and Energy-Air Quality Division (EGLE-AQD) staff, I, Adam Bognar, conducted a scheduled inspection of Ministrelli Construction Company located at three locations: 1) 15 Mile Road between John R and Dequindre, Troy, MI, 2) Taft Road between 8 & 9 Mile roads, Novi, MI, 3) Hall Road between Romeo Plank and Heydenreich Roads, Clinton Township, MI. The purpose of this inspection was to determine the facility's compliance status with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources and Environmental Protection Act, 1994 Public Act 451; and Michigan Department of Environment, Great Lakes, and Energy-Air Quality Division (EGLE-AQD) rules.

Permit to Install No. 333-79 was issued to Ministrelli Construction Company on June 4, 1979. This permit was for three concrete plants at the three locations listed above. The permit was voided on April 7, 1980 after an AQD inspection noted that the plants had been removed before they could be inspected.

At each of the three locations, Ministrelli Construction Company operated a MC-200 central mix concrete plant with a "Dusty Dustless" 36-L dust collector. I drove by all three of these locations and searched for these facilities. I did not see any evidence of a concrete plant at any of the three locations.

As a result of this inspection, the Ministrelli Construction Company AQD file will be archived.
