We acknowledge receipt of your correspondence. We also acknowledge the visit by the EGLE inspection team on or around September 6th, 2023. We can confirm that all crushing operations have ceased.

However, we are still processing broken concrete via a breaker on an excavator and loading stockpile material, which we confirmed with you, we could in fact continue to do.

We have retained Environmental Resources Group, of Wixom, MI, to assist us with the PTI application. We expect this to be done within the next 3-4 weeks. We anticipate by the end of October at the latest.

Respectfully,
