Source Class : SM OPT OUT	Staff : Kaitlyn DeVries
FCE Begin Date : 1/9/2015	FCE Completion Date : 1/8/2016
Comments : FY 2016 FCE	

List of Partial Compliance Evaluations :

Activity Date	Activity Type	Compliance Status	Comments
12/14/2015	Scheduled Inspection	Compliance	The purpose of this inspection was to determine compliance with Permit to Install No. 304-87B and 84-96C to all other applicable Air Quality Rules and Regulations.
10/22/2015	Release Reports	Compliance	As per company policy, the facility submitted a Rule 912 notification (in case it had been triggered) to AQD, after an upset situation at the Glufosinate Ammonium (GA) plant on October 7, 2015. The report states that approximately 214 gallons of organic solvent mixture was unintentionally discharged to the municipal sewer system over the course of 2.5 hours. The mixture is outlined in the report, and primarily consists of Butyl Chloride, and Butyl Acetate. The report was received on time, and all information contained therein complies with the required reporting under Rule 912 (5), if triggered. However, there is no indication that Rule 915 was triggered. No further action is necessary at this time.
