On May 30, 2018 AQD staff traveled to Crawford County to perform an inspection of Ausable Woodworking Company INC. The purpose of the inspection was to determine the facility's compliance with Permit to Install No. 250-88, 398-85, 399-85, and applicable state and federal air pollution control regulations.

AQD staff arrived on site at 1:15 p.m. to overcast conditions with a temperature of 82°F, and a SE wind of 16 mph. There were no noticeable odors upon arrival.

Upon arrival to site, AQD staff noted the facility to be run down. There are several buildings at the location and each building had broken windows or holes in the structure. Upon investigation, it was observed that each building had been stripped and or gutted completely. The buildings were empty of all equipment previously permitted.

Upon leaving the facility, AQD staff spoke with local business owners located directly next door to Ausable Woodworking Company INC. AQD staff was informed that Ausable Woodworking Company INC had been sold nearly two years prior and that the buildings have been torn out and gutted inside, with all equipment being removed from the facility.

AQD staff will recommend Permit to Install No. 250-88, 398-85, and 399-85 be voided.
