Dear Mr. Clark and Mr. Peternel:

VIOLATION NOTICE

On March 20, 2018, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of Lock's Cleaners, 303 N. Third Street, St. Clair, Michigan. The purpose of this inspection was to determine Lock's Cleaners' compliance with the requirements of the federal Clean Air Act and Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451).

Specifically, this dry cleaner is subject to the federal National Perchloroethylene Air Emission Standards for Dry Cleaning Facilities, Title 40 of the Code of Federal Regulations (CFR), Part 63, Subpart M and the Public Health Code, 1978 PA 368, as amended, Dry Cleaning Establishment Rules Utilizing Class I, II, III, and IV Solvents. According to our investigation, Lock's Cleaners owns the facility and A&B Equipment, Inc. installed the equipment at the facility. The Dry Cleaning Establishment Rules Utilizing Class I, II, III, and IV Solvents holds both the owner and the installer equally liable for violations.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Commercial, Dry to Dry, Type IV Perchloroethylene dry cleaning facility	R 325.17202(a)	The dry cleaning establishment was modified without prior notification, plans, or approval (replaced the boiler).
