RESOLVED COMPLAINTS:		

On June 21, 2018, I inspected Cadarette Collision. They have a permit for a paint booth.

The facility is a small body shop on US-23 at the south edge of Alpena. The owner, Mr. Greg Cadarette, was not there when I visited, but spoke to me via phone.

The paint booth in the body shop is covered by Permit to Install 26-90. It appears this was a general permit. In my opinion it is very likely this operation would be exempt from permit requirements under current regulations.

The facility includes a one-car sized paint booth. It is a professionally designed and manufactured booth with dry filters over all exhaust areas. The dry filters are in good condition. Exhaust is through the roof. There are no residences extremely close, so paint odors are not likely to cause complaints.

I told Mr. Cadarette to contact me if he had any questions.
