RESOLVED COMPLAINTS:		

On 1/8/2014 I conducted an unannounced inspection of this facility. My contact was Mr. Rick Bieti.

The facility continues to operate their bake-out oven permitted under PTI 166-94. Mr. Bieti stated they operate the oven about twice a month on average.

An observation of the unit showed it to be in operation during this inspection. The afterburner light was on and you could hear the afterburner working.

This facility also has PTI 19-08 for a larger bake-out oven. The unit has not been run.

No complaints regarding this facility have been received.

This facility can be considered in compliance with their PTI's and the Air Pollution Control Rules.
