Dear Mr. Berscheit:

**SECOND VIOLATION NOTICE**

On October 10, 2014, the Michigan Department of Environmental Quality (MDEQ), Air Quality Division (AQD), conducted an inspection of Rieth-Riley Construction (Facility), located at 911 Hatfield Avenue, Kalamazoo, Michigan. The purpose of the inspection was to determine the Facility's compliance with the requirements of the federal Clean Air Act; and Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the administrative rules; and the conditions of Permit to Install (PTI) No. 262-04B.

On October 23, 2014, the AQD sent the Facility a Violation Notice citing a violation discovered as a result of the inspection and requested your written response by November 12, 2014 (copy enclosed). As of this date, the MDEQ, AQD, has not received your response.

Please be advised that failure to respond in writing and identifying actions the Facility will take or has taken to resolve the cited violation may result in escalated enforcement action by the AQD. Please provide the information requested in our October 23, 2014, letter by December 3, 2014, which corresponds to 14 days from the date of this letter.

Be further advised that issuance of this Violation Notice does not preclude or limit the MDEQ's ability to initiate any other enforcement action under state or federal law as appropriate.

If you have any questions regarding the violation or the actions necessary to bring the Facility into compliance, please contact me at the telephone number listed below.

Sincerely,

Dorothy Bohn
