RESOLVED COMPLAINTS:		

I arrived at the facility to find a new name on the door - Stericycle. I entered the building and found it to be mostly empty. The office was at the back of the building. There were two gentlemen in the office and when I announced what I was there for the gentleman at the desk replied that the business name was changed in 2009 and the autoclave was removed prior to that time. The permit for the autoclave, No. 94-05, was voided on August 1, 2007. The gentleman also informed me the business is now strictly a transfer company, they have no equipment that would have air emissions.

This company should be removed from the AQD's inspection list.
