Re: Magiglide, Inc. Notice of Violation

July 10, 2018

Shamim:

Thank you and Ed Lancaster for visiting our facility on June 29th to discuss correcting the air quality violations regarding Rules R 336.1201 and R 336.1301.

To achieve compliance with the rule requiring us to use less than 25% of our scrap particleboard for fuel we have contacted a local sawmill to obtain their sawmill slab wood to use as fuel for our woodstove. We will continue to search for sources of wood for fuel as well.

Landquist & Son, Inc./Magiglide, Inc. wishes to comply with the conditions required for the exemption under Rule 282(b)(iii) and will act accordingly.

Please contact me if you have questions or require additional information.

Sincerely,

Peter Paraventi
Plant Manager
Magiglide, Inc.
