FACILITY EMAIL:

FACILITY BACKGROUND

Unifirst Corporation (Unifirst) was a rental and cleaning company for work uniforms, shop towels, and floor mats. This location operated 24 hours a day, 5 days per week. The facility processes approximately 85,000 pounds of material per day.

REQUIRED PPE

During the onsite inspection, I wore steel toed safety shoes and eye protection.

COMPLAINT/COMPLIANCE HISTORY

No complaints have been received regarding this facility. No violations have been issued regarding this facility.

PROCESS EQUIPMENT AND CONTROLS

Soiled items, such as uniform shirts and pants, shop towels, and floor mats, were brought to the facility by truck and placed in laundry bags separated by type. These bags were then weighed and moved along a conveyer system to the washing area. The facility operated 9 washing machines, capable of laundering 450 pounds per load, and 5 dryers. This equipment was powered by natural gas. After being laundered, the items were moved by a conveyor system to be further sorted by customer and location. All uniforms were labeled with a bar code to identify

the customer renting the item. Typically, a company rented 11 uniforms per employee, allowing for a week of clean uniforms, a week of uniforms being laundered, and a uniform being worn.

INSPECTION NARRATIVE

I arrived at the facility and observed that the signs had been removed and the parking lot was empty. I saw a "For Lease" sign in the front of the property. It appears that the facility has closed this location.

APPLICABLE RULES/PERMIT CONDITIONS

This facility operated by Opt-Out permit 109-19, which was issued on September 10, 2019. Since the company is no longer operating at this location, the permit will be voided.

EMISSIONS REPORT REVIEW

NA

FINAL COMPLIANCE DETERMINATION

Unifirst appears to no longer be operating at this location and the permit will be voided.
