

March 21, 2014

Dear Dennis Dunlap,

In regards to the violation notice I recieved from an inspection on February 19,2014 . We here at Prairie River Woodworking LLC. are taking the following action's to correct the Emission limit violation. The reason we are in violation is due to a delay in recieving permits that were applied in June of 2013. A new permit is in process to raise the current VOC limit allowed. We are also as of Febuary 2014 we are using a lower VOC Topcoat . If you have any question's please feel free to call.

Thanks, Bryan Schwartz
