SRN: P0118, Kent County

Dear Gerald Shepard:

**VIOLATION NOTICE**

On July 11, 2023, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of Rapid Packaging Corporation located at 5151 52<sup>nd</sup> Street, Grand Rapids, Michigan. The purpose of this inspection was to determine Rapid Packaging Corporation’s compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); and the Air Pollution Control Rules.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Lithographic Printing	Rule 201	Failure to obtain a Permit to Install.

During a previous AQD inspection, a review of Rapid Packaging Corporation’s processes was conducted, and methods for demonstrating compliance were provided. However, during the July 11, 2023, inspection, AQD staff found that no records to demonstrate compliance with the Rule 290 exemption were being maintained. As such, this is a violation of Rule 201 of the administrative rules promulgated under Act 451.

A program for compliance may include a completed Permit to Install (PTI) application for the lithographic printing process equipment, or the development of records for Rule 290. An application form is available by request, or at the following website: [www.michigan.gov/air](http://www.michigan.gov/air). Additionally, the contact information for the Environmental Assistance Center has been provided to give small business assistance.

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.
