STAFF: Joe Forth	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: On-site Inspection		
RESOLVED COMPLAINTS:		

On June 28, 2019, AQD staff Joe Forth conducted a scheduled inspection of Geddis Paving and Excavating (P0724) located at 239 Cross St Adrian, MI 49221. The purpose of the inspection was to determine the facility's compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources and Environmental Protection Act, 1994 Public Act 451, as amended, MDEQ-AQD Air Pollution Rules, and Permits to Install No. 131-16.

I arrived at the location at 11:30 am. There was no crushing equipment at the site. There was some general construction equipment that did not appear to be creating any air contaminants. There was no fugitive dust issue at the location.

I contacted Geddis Paving and Excavating Manager Erica Lapan and she informed me that the equipment at 239 Cross Street had been moved back to Ohio where the company is based. I inquired whether the equipment would return to Michigan at some point and Ms. Lapan could not say for certain so would like to leave the permit open. I instructed Ms. Lapan to let us know when the equipment is relocated. AQD received a notice of relocation on May 28 2019. While a formal review of PTI No. 131-16 was not able to be performed, there appeared to be no fugitive dust issue and Geddis has been following the reporting requirements of PTI No. 131-16.

Geddis Paving and Excavating appears to be in compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources and Environmental Protection Act, 1994 Public Act 451, as amended, MDEQ-AQD Air Pollution Rules, and 131-16.
