

**DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection**

P079149026

FACILITY: Melching Inc.		SRN / ID: P0791
LOCATION: 2406 Roberts Street, MUSKEGON		DISTRICT: Grand Rapids
CITY: MUSKEGON		COUNTY: MUSKEGON
CONTACT: Ken Callow , Project Engineer		ACTIVITY DATE: 05/31/2019
STAFF: Joe Forth	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: On-site self-initiated inspection.		
RESOLVED COMPLAINTS:		

On May 31, 2019, AQD staff Joseph Forth conducted a scheduled inspection of Melching, Inc. located at 2051 18 mile Road, Sterling Heights, MI. The purpose of the inspection was to determine compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources, Environmental Protection Act, 1994 Public Act 451; Michigan Department of Environmental Quality, Air quality Division (MDEQ-AQD) Administrative Rules, and Permit to Install PTI No. 18-19.

Site Description

Melching, Inc. received a project to crush approximately 10,000 tons of material, mostly concrete, from a demolished building. The project started on March 25, 2019. The permit for this crushing operation was voided on May 8, 2019.

I arrived at the location at 11:00 am. There did not appear to be any crushing equipment still at the location. The area was now under construction for new buildings. There were not any visible emissions, or fugitive dust in the surrounding area and roads of the construction project. I will remind Melching that if they plan to use the crushing equipment at future sites, they will need either a site specific or general crushing permit for the new site.

The permittee appears to be in compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources, Environmental Protection Act, 1994 Public Act 451; Michigan Department of Environmental Quality, Air quality Division (MDEQ-AQD) Administrative Rules, and Permit to Install PTI No. 18-19.
