RESOLVED COMPLAINTS:		

Date of Investigation: July 2, 2019  
 Date of Report: July 10, 2019  
 Source: Mobility Works (under construction)  
 SRN: P1040  
 Address: 12350 Belden Court, Livonia, Michigan  
 Facility Staff Present: Alan Bussey, Construction Foreman  
 DEQ-AQD Staff Present: Todd Zynda, Air Quality Division, Detroit District Office  
 Time of Investigation: 1:55 PM to 2:05 PM

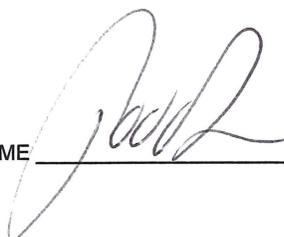

**Summary of Facility Visit and Compliance Status:**

Mobility Works, located at 12350 Belden Court, Livonia, Michigan, was identified as a targeted inspection for 2019 due to the close proximity to ambient air trichloroethylene (TCE) concentrations that were detected as part of the Ford Beacon Project indoor air monitoring. For information regarding the ambient air sampling conducted as part of the Ford Livonia Transmission Plant remedial investigation, please see SRN A8645, MACES report CA\_A864547612. There are no records of air quality permits on file for this facility.

On July 2, 2019 Mr. Todd Zynda arrived at 1:55 PM at 12350 Belden Court and was greeted by Mr. Alan Bussey, Construction Foreman. According to Mr. Bussey, the building is currently undergoing renovation for a new business (Mobility Works) scheduled to move in by the Fall 2019. According to Mr. Bussey Mobility Works will be converting vans to be handicap assessable at this location. During the inspection the building was observed as vacant, with construction work being performed (new interior walls, electrical).

According to Mr. Bussey, the facility does not operate any of the following equipment: boilers, cold cleaners, or emergency generators.

Operations at the facility (currently vacant) do not appear to be subject to air quality rules or regulations. The source is considered to be in compliance for the reason that no air emissions activity occurs at this address.
