

P1119
MAY 12/24DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: On-site Inspection

P111973469

FACILITY: Tore Corp dba Elite Crushing		SRN / ID: P1119
LOCATION: 37500 Northline Road, ROMULUS		DISTRICT: Detroit
CITY: ROMULUS		COUNTY: WAYNE
CONTACT: Dwight Earle , Plant Operator		ACTIVITY DATE: 09/03/2024
STAFF: Terseer Hemben	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Concrete crushing and fugitive dust control.		
RESOLVED COMPLAINTS:		

Facility Background

Tore Corp was permitted to install and operate a set of concrete crushing equipment at the 37500 Northline address on 3/19/2020.

Inspection Narrative

I arrived at the facility on September 3, 2024 to conduct compliance inspection of the crushing process. I met with Deanna Osborne and Richard Osborne-the owners and operators of the facility permitted under General Permit# 32-20.

Deanna informed that this equipment had been disabled and was not in operation. The management contacted the Permit section in Lansing for addressing the permit status of the equipment.

Staff awaits the notice from the Lansing office regarding the outcome of determinations on permitting requests put in by the Company.

Determination:

The facility (P1119) was in compliance with the EGLE-AQD air quality control rules listed in the General permit# 32-20.
