Re: SRN P1237
Northland Mall Redevelopment

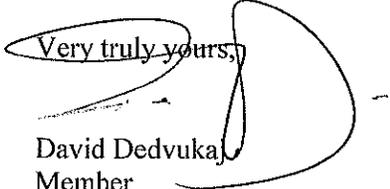

Dear Mr. Elmouchi:

Enclosed is a copy of the Permit to Install Application (Form EQP 5615E), which is being submitted simultaneously with this correspondence by Contour Development Group LLC ("CDG") for the Northland Mall redevelopment in Southfield, Michigan.

The equipment in question is being leased by CDG and was delivered to the site on November 12, 2021 and briefly tested on that date. CDG believed the equipment lessor was going to handle all necessary permits. Unfortunately, that proved not to be the case. The equipment has not and will not be operated until the General Permit is issued. CDG's on-site Construction Manager has been instructed accordingly.

We trust the foregoing, along with the submittal of the Permit to Install Application, will clear up the violation. CDG greatly appreciates the assistance of EGLE, and your professionalism in particular, with helping to resolve this matter.

Very truly yours,

David Dedvuka
Member
