WARREN DISTRICT OFFICE

LIESL EICHLER CLARK  
DIRECTOR

November 18, 2021

VIA E-MAIL AND U.S. MAIL

Mr. David Dedvukaj, Managing Member  
Contour Companies LLC  
40950 Woodward Avenue, Suite 300  
Bloomfield Hills, MI 48304

SRN: P1237, Oakland County

Dear Mr. Dedvukaj:

**VIOLATION NOTICE**

On November 15, 2021, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), contacted you about Complaint Number C-22-00186 regarding the installation of a nonmetallic mineral crusher at the former Northland Mall property in Southfield, Michigan. The purpose of the contact was to determine compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and to investigate Complaint Number C-22-00186, which we received on November 12, 2021, regarding nonmetallic mineral crushing attributed to Contour Companies LLC's operations.

During the telephone meeting with Mr. David Dedvukaj and Mr. Paul Baragamian, staff determined the following:

<b>Process Description</b>	<b>Rule/Permit Condition Violated</b>	<b>Comments</b>
Nonmetallic mineral crusher	Michigan Air Pollution Control Rule R 336.1201(1)	The company installed nonmetallic mineral crushing process equipment without obtaining an approved permit to install prior to installation.

During this telephone meeting, it was noted that Contour Companies LLC had installed unpermitted equipment at this facility. The AQD staff advised Contour Companies LLC on November 15, 2021, that this is a violation of Rule 201 of the administrative rules promulgated under Act 451.

Mr. David Dedvukaj  
Contour Companies LLC  
Page 2  
November 18, 2021

A program for compliance may include a completed PTI application for the nonmetallic mineral crusher process equipment. An application form was provided via email on November 17, 2021.

Be advised that Rule 201 requires that a permit be obtained before installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant. Operation of the process equipment before obtaining an approved permit to install may result in escalated enforcement.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by December 9, 2021 (which coincides with 21 calendar days from the date of this letter). The written response should include: the dates the violation occurred; an explanation of the causes and duration of the violation; whether the violation is ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violation and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.

Please submit the written response to EGLE, AQD, Warren District, at 27700 Donald Court, Warren, Michigan 48092 and submit a copy to Ms. Jenine Camilleri, Enforcement Unit Supervisor at EGLE, AQD, P.O. Box 30260, Lansing, Michigan 48909-7760.

If Contour Companies LLC believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

Thank you for your attention to resolving the violation cited above and for the cooperation that was extended to me during the telephone meeting of November 15, 2021, and subsequent meetings. If you have any questions regarding the violation or the actions necessary to bring this facility into compliance, please contact me at the number listed below.

Sincerely,

Robert Elmouchi  
Senior Environmental Quality Analyst  
Air Quality Division
