6-23-2022

I am submitting this letter as a follow up to provide additional information for the violation that my business, Meg's Hauling, received on 5-20-2022. The business address is 67401 Brian Drive, Ray Township, MI 48096. On this date, Kaitlyn Leffert observed a Concrete Crusher at my business site which I had been operating without a permit for approximately one month because I was unaware that this was a necessary requirement through the State of Michigan. Since this date, the Concrete Crusher has ceased all operations and is currently not in use. I will be submitting a PTI application and will wait to resume all Concrete Crushing until I receive the necessary permit. Thank you for allowing me to further clarify this information.

Sincerely,

Lyle Fleischmann
