

DEPARTMENT OF ENVIRONMENTAL QUALITY  
AIR QUALITY DIVISION  
ACTIVITY REPORT: On-site Inspection

P134873272

FACILITY: KOENIG MATERIALS LLC	SRN / ID: P1348
LOCATION: 1955 LAKEVILLE ROAD, OXFORD	DISTRICT: Warren
CITY: OXFORD	COUNTY: OAKLAND
CONTACT: Daniel Rodgers , Environmental Coordinator	ACTIVITY DATE: 08/22/2024
STAFF: Joseph Jaskowski	COMPLIANCE STATUS: Unknown
SUBJECT: Annual Inspection	SOURCE CLASS:
RESOLVED COMPLAINTS:	

On August 22, 2024, EGLE AQD staff Joe Jaskowski conducted an inspection of Koenig Materials LLC (P1348) located at 1955 E. Lakeville Road, Oxford, Michigan, 48361. The purpose of the inspection was to determine the company's compliance with the requirements of the Federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of the Permit to Install (PTI) No 30-23.

Upon arrival at the site, I met with Daniel Rodgers, the Environmental Coordinator. Mr. Rodgers stated that the company was working to bring the equipment on-line, was still in the process of labelling the equipment, and would submit a revised plant layout along with the 15 day notification for the U.S. Environmental Protection Agency (USEPA) Method 9 Visible Emissions (VE) test for opacity.

The crusher is currently not operating at the maximum production rate. Mr. Rodgers stated that he is certified to read visible emissions and would be conducting the Method 9 Visible Emissions (VE) test in the near future. AQD staff explained the need to keep the yard watered, to keep down the dust.

As the plant was not in full operating status at time of the inspection, the compliance status is unknown, and staff will follow-up later.
