Recent Complaints (within 2 years):

None found on record

Number of Violations Found During this Inspection:

None

Inspection Key Concerns:

None

MAERS Reporting

No, not applicable due to devices being removed

MAERS Emission Unit List

None

Inspection Summary

This facility was targeted for inspection due to having an old permit and the permit application stating "Denied-Out of Business" yet still remaining active in the AQD system.

I drove by this site and could not find the address or the business. I stopped at a Carrier heating and cooling equipment supplier located at 3305 E. Bristol and they stated that the only asphalt company in the area was located on Jimbo Drive.

Research found that the asphalt company at 4190 Jimbo Drive is SRN B1597, Ace Asphalt which holds PTI's 128-73F and is assigned to Dan McGeen.

Based on the permit application and not being able to physically find the company, this report will be used to void PTI 61-68 in accordance with MDEQ memo Procedure for Voiding Permits to Install, dated June 7, 1999.

A voidance letter will not be sent due to not having appropriated contact information.
