November 6, 2019

Dear EGLE.

Bees Prep and Asphalt Inc. has received the violation notice dated October 22, 2019. On October 19th 2019, while working at the Lansing Mall, Bees was using a saw cutter that was working improperly. Due to the improper functioning of this equipment some dust was blown around the area. Bees has sent this saw to be repaired. This will not be an ongoing issue. The saw was repaired and is functioning properly with no issues. We have put a memo out to all employees informing them that if any equipment is malfunctioning they are not permitted to use it until repairs are made. Bees will take all necessary steps to stay in compliance with rule 901 in the future.

Sincerely,

Annette Gonzales, V.P.
Bees Prep and Asphalt, Inc.
